Step by Step Tutorial

1. Begin with two 5 ½ x 4 ¼ card bases of **Basic White card stock**.
2. Cut a piece of 5 ¼ x 4 of **Daffodil Afternoon Designer Series Paper (DSP)**
  - Cut piece in diagonal from TOP right to BOTTOM left using the CRUSHED CURRY pattern side of the DSP to ensure the pattern direction remains facing
3. Adhere diagonal DSP pieces on Basic White card base with **All Purpose Glue**
4. Using your Stampin' Cut & Emboss Machine with the **DAFFODIL DIES (157794)**
  - For FLOWER PIECES: Cut with LARGE dies using **Daffodil Delight** and smaller dies with **Crushed Curry card stock** to create the two tone effect
  - Using all the LEAF and STEM dies, cut using **Mossy Meadow card stock**

# D DAFFODIL DAYDREAM with Daffodil Afternoon DSP

## 5. Assemble flower pieces using the **Fine Tip Glue Pen**

- Set any “extra” pieces aside for use on additional projects.

## 6. Adhere the flower blossom on a Mossy Meadow “stem” with glue

## 7. Once dry, arrange your flowers with stems and leaves on the card using your adhesive of choice.

- I recommend both **Mini & Regular Dimensionals** for the blossom and after you have arranged the stems and leaves so you can “wrap” with a ribbon – secure with either **All Purpose or Fine Tip Glue**.

## 8. For the RIBBON – For the featured sample -- I used some old retired White Sheer ribbon that I colored with a **Mossy Meadow Alcohol Ink pen**. Since this product is no longer available; please refer to my product recommendations linked below for other ribbon choices.

## 9. The sentiment is stamped on a piece of Basic White in **Memento Black ink** using the **DAFFODIL DAYDREAM stamp set**.

- Cut the sentiment using the large LABEL die from the **Beautiful Shapes Die (158046) set**.
- Embellish with the **Brushed Brass Butterflies (158136)**

*NOTE: If you use all the DIES on the first pass – you will have plenty of pieces to create two if not more blossoms.*
